Coshocton County Commissioners

I wanted to thank you for your support in getting the countywide broadband wireless in the county.

Access to the high speed internet has helped me with my job as a fiscal officer with Monroe Township. I am able to look up a broad array of resources to help answer questions I may have.

With dial up it seemed like it took forever to bring up the web sites I wanted to see. Now with high speed the web sites are available within seconds.

Thank you,

A handwritten signature in cursive script that reads "Cathy Williamson".
