**Friday, October 30, 2009**

**3:00 PM to 6:00 PM**

**at**

**The Coshocton County Career Center**

**23640 Airport Rd.**

**Coshocton, Ohio (by WalMart)**

The Coshocton County and City Health Departments have received a limited supply of H1N1 Flu Mist Nasal Vaccine. Flu Mist is approved for people starting at age two (2) who do not have certain health conditions, such as asthma, diabetes, heart disease, lung disease, kidney and liver disease, or a weakened immune system and are not pregnant. The vaccine virus is attenuated (weakened) so it will not cause illness. This vaccine is sprayed into the nose. H1N1 vaccines are made just like seasonal flu vaccines and are expected to be as safe and effective as seasonal flu vaccines.

We have scheduled an H1N1 Flu Mist clinic for persons in the following priority groups:

- Household members/caregivers of infants 0-6months
- Direct Health Care and EMS Providers
- Children ages 2-18 years
- Adults ages 19-24 years

Please note this clinic is for H1N1 Flu Mist only. You ***must*** be a healthy person in one of the priority groups above to receive the vaccine.

There is no charge for the vaccine.
