Addresses will be assigned based upon the location of the drive access to the property. Please provide us with an accurate location of driveway and proposed building. Indicate on which side of road the structure will be located and how far off the road.

All new driveway construction requires an Access Drive Permit. Changing the use of an existing drive (i.e. using an existing field or oil well drive for residential access) also requires an access permit. These can be obtained at the County Engineer's Office at 21394 CR 621 or by calling 740-622-2135.

Return completed application to:
