

**COSHOCTON COUNTY COMMISSIONERS  
COSHOCTON COUNTY ENGINEER  
THREE RIVERS PENINSULA, SKIP'S REFUSE PROJECT**

**REQUESTS FOR INFORMATION**

1. Do any of the current structures on the property have Asbestos?

**Answer: The site has had an Environmental Assessment performed and there is no evidence of asbestos at the site or in any of the structures.**

2. Is there an Engineer's Estimate for the proposed work?

**Answer: The Engineer's Estimate has been directed to be kept confidential until the bid opening.**

3. Can water from the nearby river be used for hydroseeding?

**Answer: Yes, water can be drawn from the river provided all necessary permits have been acquired. Bulk water sales are also available at the city water treatment facility located directly across the bridge from the site on the left. Fire hydrants may be used with City of Coshocton approval.**
