Request for Water and Septic Certification

Services requested: Sewage certification _____ Water certification _____

Property address _____

Owner's name _____

Year home was built _____ Original owners _____

This report will not be a guarantee and will apply only to the conditions observed on the date of inspection. The inspection is limited to those items, which can be observed under the prevailing weather and surface conditions at the time of inspection. A change of usage may affect the performance and life of the water and sewage systems.

I have read and understand the conditions and limitations of the certification request form.

Signature _____ Date _____

Name of Agency _____

Requesting party _____

Phone number _____ Fax _____

Payment is due at time of request.

The cost of the certification is \$100.00 for sewage and \$125.00 for water (which includes one bacteria water sample). Any other water testing will be an additional fee. Distances only is \$100.00.

Please make your request as soon as possible (preferably two weeks prior) so that we may have ample time to do the inspections before your closing date. Water samples are picked up Wednesday's by 11:00 am. Bacteria results are faxed to us Friday by noon.

Please note that lead, nitrates, and nitrites samples take longer, approximately seven (7) to ten (10) days.
