What is Mobility Management?

- Innovation in transportation services and coordination
- Local/regional solutions to fit community needs and visions
- Assists transportation-challenged populations (youths, disabled, elderly, low income...)
- Easy place to go for information/referrals to assist individuals in learning about and accessing local transportation services
- Shared table of transportation providers, planners and community stakeholders to collaborate, plan, implement and maintain a family of transportation services

What must Mobility Managers do?

- Provide technical assistance in the completion of the county's Locally Developed Transportation Plan
- Coordinate meeting for the county's transportation advisory committee
- Implement new mobility management practices with clear goals, strategies and outcomes
- Manage a website that acts as a repository of transportation options in the community
- Connect with the community at all levels

Travel Training

Travel Training is the practice of teaching independent travel techniques to members of our community.

How can travel training help?

- Travel training is offered one-on-one and to groups (home visits provided upon request)
- Creates an individualized travel plan
- Teaches travel safety
- Increases independence
- Better access to NET appointments, shopping and trips relative to daily living needs
- Provide assistance if needed at rider's discretion
- Share knowledge of provider's agency policies

Mobility Management Offers

- Assistance to Coshocton County residents
- Coordinated transportation services
- Travel training for consumers
- Assistance with program eligibility
- Speaking engagements for groups and public functions
- Hub for transportation options
- United collaboration of providers, planners and stakeholders to develop and maintain a family of transportation services
- Connection between consumers and providers

Mobility Management...

Increases mobility options for residents of Coshocton County and allows for safer travel.

It provides a service with the consumers' needs as the focus, offering mobility rather than transport. Having an up-to-date list of mobility options allows for quick referrals and solutions to your mobility needs. We believe mobility increases independence therefore, adding to the quality of life for our county's residents.

It is my pleasure to assist you in finding a solution for your mobility needs.
