Protecting Local Soil and
Water Resources Since 1942

“Providing Leadership to Educate and Assist Landowners in the Wise Management of our Natural Resources”

Coshocton SWCD provides technical assistance through a Cooperative Working Agreement with the U.S. Department of Agriculture—Natural Resources Conservation Service (NRCS). All Technical Assistance provided by the Coshocton SWCD **MUST** follow USDA-NRCS Standards and Specifications. If the landowner wishes to install the practice without following these Guidelines, our assistance will be **withdrawn immediately**.

Coshocton SWCD Board of Supervisors prioritized the workload of our technical staff and will follow the priorities as set by our stakeholders by a mail in survey in 2020. Concerns and priorities identified by our stakeholders are as follows.

Resource Concerns include:

1. Water Quality
2. Soil Health
3. Plant Health
4. Air Quality
5. Wildlife Habit

Work Priorities are:

1. Technical Assistance
2. Conservation Education
3. Financial Assistance
4. Urban Assistance

The Coshocton SWCD Board of Supervisors approved these guidelines at their March 11, 2021 board meeting when the 2021-2025 Long Range Plan was approved.
