Mike LaVigne – IT Update

Mr. Mike LaVigne and Mrs. Robin Schonauer attended the meeting to give the Commissioners an IT Update. Mr. LaVigne stated he had a meeting with Mrs. Schonauer and determined that there are enough monies in the budget to update the county router. Also, he would like to double the capacity of the VM server. These two items can be purchased within the IT line item budgeted for 2010. The Commissioners stated that they have no problem with him purchasing these two items.

Safety Update

Mrs. Tiffany Swigert attended the meeting to give an update on the Safety Programs in the county. She stated that she attended a Workers Compensation meeting in Columbus yesterday and reported on her attendance there. She stated that we are doing well in the new group we have been placed in. She then reviewed the findings from the CORSA Safety Audit. We did not score 100% as we did in previous years. There are two areas that need to be addressed, one being that a data base of claims has not been kept, and the second being our Driver’s Eligibility needs to be addressed in a couple areas. She feels that we can correct some of these issues pretty easily. If these areas are addressed by the end of the year, then we will be able to get the full credit. The Commissioners thanked her for her update.

Mayor Steve Mercer

Mayor Mercer stopped in to ask if the Commissioners are ready to put the Water Contract to the Water Committee. He would like to put it on the agenda for next Wednesday. Mr. Shryock stated that this is a big project for us and it is our intent to put a work session together within the next few weeks. Mayor Mercer stated that they will not give him authorization to sign the agreement until mid-October. The Commissioners stated that they do not have a problem with them putting it on the agenda for Wednesday.

Omnicity

Mr. Robert Kubala attended the meeting to discuss the issue of not being able to get a response from Omnicity about broadband coverage on CR 93. They do not get coverage from the Bakersville 911 tower, but have access to a very tall silo on the Powell farm that will work. They have called and been told that Omnicity is aware of the situation and Mr. Weddell will call them, but he has not responded at all. Mr. Weddell was scheduled for the first Wednesday of each month in the Commissioner's Office. The Commissioners did have him on their agenda today. However, he thought the date was September 8th. Therefore, he will be here in the Commissioner's Office on September 8, 2010 at 9:30 a.m. Mr. Fischer stated that this is what we are hearing a lot of lately. He did state that Omnicity does have a satellite system that they are trying to utilize for those residents that are unable to get the wireless at this time. Once the wireless service is available, they can then move over to the wireless system. Mr. Kubala stated that may work, but it would be nice to have a call back to have this explained to them, or at least know that this option is out there. He just really feels that Mr. Weddell not responding is very unacceptable. The Commissioners stated that they understand his feelings. They suggested that he come back on September 8th.

Adjourn

At 12:47 p.m. Mr. Lee adjourned the meeting.
