expectancy for the machine which is 10-12 years. He stated that the machine can be moved if necessary. He feels this is a necessity for the Coshocton Justice Center. He stated that there are 2 options for the placement of this scanner. One is to add on to the building which would be an additional cost of \$22,000 to \$30,000. Another option would be to utilize a hallway and block off I-block. At this time they utilize it for both male and female. If they shut off this hallway, they will only be able to use I-block for females. Lt. Crawford stated that Pat Kelly, Architect was down to look at the facility and he determined that they would need an additional 12x14 addition built on. The Sheriff stated that they have seen an increase in contraband being brought in to the facility. Not any more than any other facility, however, it is happening. That being all, the Commissioners stated that they will review everything and get back with them as soon as possible. They thanked them for their presentation.
