Vote:	Shryock	yea
	Lee	yea
	Fischer	yea

Discussion – Mr. Nick Teti

Mr. Nick Teti, Mrs. Barb Teti, Ms. Susan Johnston and Mrs. Tiffany Swigert attended the meeting to discuss the Legislative Luncheon as well as the injection well. Mr. Teti asked information on the Legislative luncheon, who puts it on and who is responsible for inviting attendees. Mr. Shryock explained that the Port Authority puts on this luncheon and they invite the attendees. He then asked about the Port Authority Board and how the members are appointed or elected. Mr. Shryock then explained the process for appointing the members. Mr. Teti then stated that he and his group are concerned with the injection well over near Walmart. He then stated that he would like to share with the Commissioners ways other elected officials have supported their mission. They are opposed to the injection wells. He explained that Buckeye Brine has applied to the EPA to move from a Class II site to a Class I site. He explained that there are 27 oil and gas wells that are deep enough in that area to be affected by the migration of the substances being injected into those sites. He stated that there are some water wells in the Canal Lewisville area that have an oily residue and when boiled, the water turns gray. He stated that the Coshocton Well field is within the area of review and this is a concern as well. He stated that there are currently 38 injection wells in the State of Ohio and we accept waste from other states at this time. He talked about the kinds of toxic substances being injected into these wells as well as the storage. Mr. Shryock stated that statutorily, we have no authority or oversight of this issue.
