Our Town Coshocton Technical Support/Website Host

Mr. Mike LaVigne and Mrs. Barb Karr attended the meeting to discuss Our Town Coshocton's request for technical support and website host. Mrs. Karr stated that Our Town Coshocton is a nonprofit and they are looking for ways to decrease costs. She said that she is asking if the Commissioners would consider hosting their website and for some technical support if possible. She stated that they do not want to burden the county nor do they want anyone to think they are an arm of the county either. Mr. Shryock stated that there may be some issues with county security. He asked Mr. LaVigne to give us any pros or cons for this request. Mr. LaVigne stated that even if they keep their domain name, they are still pointed at the county. He said that yes we can do this, but it is up to the Commissioners whether or not they take this on. He said he has a concern with opening this up as this may cause issues with additional requests from other nonprofits. He stated that he would prefer to help point them in the direction of other options. He is also concerned with security for the county by adding additional ports for this request.

Mr. LaVigne stated that he feels this may open the door to other nonprofits and we are not equipped to do that. The Commissioners stated that they would like her to work with Mr. LaVigne to determine the options he may have for them to determine if that will work for them. The Commissioners thanked them for attending.
