ABM Industries Presentation

At 9:00 a.m., Mr. Vincent Ferragonio of ABM Building Solutions, LLC, addressed the Commissioners. Mr. Ferragonio explained that ABM is a nationwide company with significant experience in Ohio, specializing in helping counties and municipalities fund infrastructure projects without raising taxes and easing budget constraints. He outlined the challenges counties face, including ongoing infrastructure needs, funding gaps due to uncertain revenue streams, increasing resource demands, pressure on the general fund, and deferred maintenance. Mr. Ferragonio emphasized that investment in infrastructure equates to investment in the community and noted that ABM works collaboratively with counties to develop tailored solutions.

Mr. Shryock reviewed several new completed county projects, including improvements to the Health Department, Coroner’s Office, EMS facilities, Justice Center, and courthouse sidewalks. Mrs. Beck added that lighting on the courthouse lawn is the next planned improvement. Mr. Ferragonio described ABM’s approach, which begins with a free, no-obligation analysis of all county facilities. He explained that an engineer would tour each building and assess utility costs per square foot, as well as HVAC, roofing, lighting, and service contracts. The full audit would take one to two months, after which ABM would present findings and recommendations. Savings are fully guaranteed and aligned 1:1 with project terms, with potential reductions in both maintenance and energy consumption costs.
